CENTRAL INTELLIGENCE AGENCY
WASHINGTON, D.C. 20505

27 May 1982

Mr. John R. Burke
Deputy Assistant Secretary of State
Classification/Declassification Center
Room 2811, New State
Washington, D.C. 20520

Dear Mr. Burke:

Interagency consultations in 1979 resulted in a government determination that CIA would be responsible for coordinating the systematic classification review of certain intelligence community records including the National Intelligence Estimates (NIEs) series. To implement this decision, CIA has systematically reviewed all the NIEs 20 years old or older, and some produced as recently as 1965. Declassification has been recommended by CIA in approximately 50 percent of the NIEs and coordination of those recommended for declassification was begun in early 1981. We request that all coordinating agencies vigorously pursue the systematic review of these NIEs because it appears from results received to date that the great majority, if not all, so recommended will be declassified.

To promote this review, we are sending the attached compilation of NIEs that CIA has recommended for declassification and a record of the coordinations achieved to date. We will update this listing periodically until all coordinations have been completed. The listing will also serve to indicate when coordination has been completed on certain NIEs so that each agency can take action on copies they hold. In this regard, it should be noted that as of 4 February 1982 the Army acknowledged that they would defer to DIA to take action on the NIEs.

The coordination actions that already have been taken are much appreciated and it is hoped that each agency will conduct its review within a reasonable period so we can complete the job. If we can be of further assistance or you have any questions or suggestions, please contact [redacted] STAT Classification Review Division, Office of Information Services, Directorate of Administration, 322 Ames Building, Rosslyn, Virginia, telephone [redacted] STAT

Sincerely,
